Thank you for the information. As to your time, I thought charging 50% of your time to the removal was reasonable, starting from the date the removal order was finalized to when you left; without a better way to divide it, does this seem reasonable to you?

No travel for the removal action. Only traveled for the community meetings which covered both removal and RI/FS. I wouldn't know how to isolate out what percentage was what.

Did you go on any travel for the San Jacinto removal action only? If so, could you identify which trips? We are trying to finish the bill for the removal oversight costs.

Thank you.
